สวัสดีครับ

## Learning Reflection 2

The feeling of LNG222 is an English language course, which I personally don't like much about English. But when it comes to studying at the university seriously it feels fun here. I know something that I never knew. Studying and not stressful, at first may be afraid to speak English. Because I can't read, I can't hear, can't speak But after two semesters of study, I started to read some vocabulary and started writing. But I still can't figure it out. As soon as I learned how to do some Google research and learn about video reviews, game reviews, movie reviews or article reviews. I have learned more. Has made me open up more worlds What did you get to know more? Things that I had never known before Even in English Even more difficult for me In listening to English Speak english English presenter But I find a way to make those jobs. Completed in time as the teacher has made an appointment Although it is very difficult for me, I am using this translation app to use it. I used more English in my life, how I felt about it, and this course was so fun and okay for it. Because teachers do not release students who are not English Professors are there to provide counseling to help students who do not know what to do. The instructors will teach, tell, and do not cause the students to be too stressed. Teachers play and tease the students in a better mood. And learn English in a fun and informative way So I feel like I'm really satisfied with this subject.

Our teacher is very understanding and also knowledgeable. He help me a lot in improving m English. I like this class because it is fun to learn.

Then the subject taught by the teacher is familiar and can be used well in everyday life because it is about reviews. The instructor in detail has detailed examples that are easy to understand. Game review, movie review or article review this is to make a review video with my own thoughts to review what we choose as a standalone event, taking a review clip for 3-5 minutes. And then there is another event, which is a group of 3-5 people to shoot a review clip like but we have to choose what we will review. There are games, movies, things. They divide each other's duties in groups to see who performs and what functions within the group Review clip made Teachers give 3-7 minutes. Then edit it and post it on YouTube, it's a job that has never been done. But can do it because there is a good teacher who will give you advice, teach you how to make it easy to understand so that you can think and can be done until the end It was a fun subject and the teacher was very friendly. Learn with fun, gain knowledge faster and understand easier and faster. I'd like to recommend choosing a lot of lecturers' classes. It's not harder than you think. May not be easy But the teachers do and teach until we can graduate with good grades. Accumulate until graduation.

Thank you to the teacher for teaching me for the whole 1 year.

**THANK YOU TEACHER.**
